

## JOURNAL N°8 — “ILÔT URBAIN”

*(Contextual insertion on Place de la Riponne)*

*“We do not occupy the city. We offer spaces for it to gather.”— thought of the day*

### MATERIAL

Concrete ground: fixed, inert  
Wooden deck: raised, inviting  
Steel rods: silent frames  
People: moving, staying, looking  
Air: drawn between the lines

### TOOLS

Sketches  
Model  
Observation  
Imagination  
Site-specific intent

*“The real tool is the public eye —how it walks through what we built.”*

### GESTURE

Elevate . Align . Open . Frame . Invite . Occupy . Step aside.

### REFLECTION

ILÔT URBAIN is not only a void between buildings. It is charged. Our platform offers an island for pause, for view, for gathering.

*“It activates nothing new —it reveals what was already there.”*
